

# STACKSTONE®/ROMANSTACK® 25”

FIRE PIT

# STACKSTONE® / ROMANSTACK® 25" FIRE PIT

**StackStone®** and **RomanStack®** fire pits have a 25" inside diameter and include a durable grill.

A **42" inside diameter fire pit** can also be constructed to accommodate a hinged grill, but check with local bylaw regulations prior to construction.

STACKSTONE FIRE PIT

ROMANSTACK FIRE PIT

42" FIRE PIT

### 25" Fire Pit Instructions

1. Excavate a 45" diameter, 6" deep area.
2. Fill the area with 4" angular gravel (road crush) and compact to 2" below grade ensuring area is level.
3. Place the 1st row on the prepared base by alternating Standard and Tight Radius units. Note you will use eight stones per row.
4. Sweep the tops of the stones clean.
5. Place the 2nd row on top of the 1st row by centering the stone on the joint of the two stones below. Alternate between Standard and Tight Radius units.
6. Repeat for the third row.
7. For the top row, alternate Stackstone Coping and Stackstone Tight Radius unit and place grill.
