FlagStack® Wall System

Look & Character
of Natural Stone,
without the Hassles

Colours may vary by region

The Flagstack® Wall System is a natural looking, versatile and easy-to-install landscape wall system that offers the appearance and character of a genuine drystack flagstone wall at a fraction of the cost.

Perfect for seat and garden walls*, pillars, planters, tree-rings, fire pits, grill islands and BBQ's. The Flagstack Wall System integrates a mixture of real flagstone textures on both the front and back of the units to ensure a natural random stone appearance.

The specially integrated alignment system allows for effortless installation for the professional landscaper and the Do-It-Yourselfer. The uniquely engineered S shape and patent pending design, interlocks to create a 3D Shear Matrix (*front to back, side to side & vertically*) for added strength and longevity.

Unique S Shape & Alignment System

creates a 3D Shear Matrix and provides interlock & auto-alignment with the stone above

Easy-to-Install

No annoying clips, pins or complicated patterns. **Just 3 Simple Installation Rules.**

1 For Straight Walls
Match sides **A to A**
or **B to B**

2 For Curved Walls
No cutting, just match
sides **A to B**

3 Auto-Alignment
Along courses alternate
stones with & without
Alignment Knob

Flagstack Walls System integrates a collection of sizes including 4 standard, 2 jumper, 2 corner and 2 coping unit types, featuring over a hundred distinct stone face textures. The unique shape, array of unit sizes and random natural stone textures allows you to create virtually any design or pattern you can imagine. *All Standard Units come bundled and randomized for quick easy installation. Refer to Estimation Guide for additional information.*
