# Artifical Turf Buyer's Guide

2021

## Lawns

There are several grades of artificial turf that can be used in a lawn application and these grades offer different benefits. The shape of the grass blade, amount of fibers, and colour blends are the main factors to consider. Luckily, we have broken it down for you.

## Putting Greens

Like with choosing and artificial turf for lawns there are also multiple options for your putting green applications. With putting greens the main things to look for are the strand structure and colour and whether or not you are looking for a kit. Find out how to choose the right product below.

Turf Installation

Putting Green Installation

With artificial turf for lawn applications the blade shape is king. Whether that be flat, U-Shape, Wave shape, or S shape, the shape determines the strength and benefits of the turf. From there you want to look at the face weight of the turf (the heavier the better) which will indicate how many strands are woven into it. Next up is the pile height which will indicate how plush the grass feels under the foot (again the higher the better). Lastly you will want to look at the colour blend but this is less important than the others.

### CASCADE ELITE

Built with exclusive WaveBlade™ technology, the Cascade Elite has a one-of-a-kind wave-like structure that allows its grass blades to stand up to heavy traffic or long-term compression and gives the appearance of real grass by giving each strand a spine. The WaveBlade™'s wave-like structure keeps the grass up to 10˚ cooler than its nearest competitors and the unique design allows the suns uv rays to deflect in multiple directions leaving the grass with no shine or glare. The Cascade Elite is our all-around favourite at The Rusty Shovel.

| **Blade Shape:** | Wave Blade |
| **Face Weight:** | 76 Oz / Sq Yd |
| **Pile Height:** | 1 7/8" |

$5.75/SQFT

### COASTAL PRO

If play is on your mind, Coastal Pro may be the grass for you. Designed with Bella Turf's ultra Soft S-blade technology, Coastal Pro offers one of the softest artificial grass products available. The S shape gives the turf structure and helps reflect light while being a little less rigid th. From daycares, pet areas, play areas, decks, back yards and front yards; Coastal Pro is the perfect application if you want your grass to feel authentic. Your family will love the luxurious feel of the Coastal Pro. This turf is our number one pick for families that play outside.

## SIERRA PACIFIC

Designed with Bella Turf's U-Shape™ technology, Sierra Pacific is capable of handling moderate to heavy traffic. It is the perfect grass for both your front yard and back yard or any entertainment area that has a large amount of foot traffic. The U-Shape™ technology built-in to the Sierra Pacific keeps the blades standing upright while still reflecting light. Out of the mid-range turfs this is the one to go with because of its natural looking colour.

| | |
|---|---|
| **Blade Shape:** | U - Blade |
| **Face Weright:** | 71 Oz / Sq Yd |
| **Pile Height:** | 1 3/4" |

$5.25/SQFT

## PARK ROYAL

Designed with Bella Turf's U-Shape™ technology, Park Royal is capable of handling moderate to heavy traffic. It is the perfect grass for both your front yard and back yard or any entertainment area that has a large amount of foot traffic. The U-Shape™ technology built-in to the Park Royal keeps the blades standing upright while still reflecting light. A more vibrant green than the Sierra Pacific

| | |
|---|---|
| **Blade Shape:** | U - Blade |
| **Face Weright:** | 71 Oz / Sq Yd |
| **Pile Height:** | 1 3/4" |

$4.50/SQFT

## SIERRA PACIFIC LITE

Designed with Bella Turf's U-Shape™ fibers, the Sierra Pacific lite offers one of the most textured and elegant aesthetics in the artificial grass line-up. Capable of handling moderate traffic, It is the perfect grass for both your front and back yard or around pools, gardens, dog runs and even on decks. With the lower fiber height the transition plays exceptionally well around putting greens.

| | |
|---|---|
| **Blade Shape:** | U - Blade |
| **Face Weright:** | 45 Oz / Sq Yd |
| **Pile Height:** | 1 5/8" |

$4.25/SQFT

## SPRING PRO

It is the ideal artificial grass for any low traffic areas such as garden heavy properties, green roofs, and front yards. If you're looking for a visually stunning grass that doesn't break the bank, the Spring Pro is the grass you've been searching for. Despite the price, this grass still looks extremely realistic and the Spring Pro is no exception with its two toned flat blade and two toned thatch colours. Say "no more" to mowing the lawn every other day and install Bella Turf's Spring Pro

| | |
|---|---|
| **Blade Shape:** | Flat Blade |
| **Face Weright:** | 52 Oz / Sq Yd |
| **Pile Height:** | 1 5/8" |

$4.25/SQFT

## CLASSIC

To make things even better, the Classic comes with a flat blade, and light-weight design offering the best of both worlds – a high-end aesthetic and a low-cost product. Perfect for low-traffic areas such as "green roofs" and front-lawns, the Classic is ideal for customers who are looking to cut down on lawn maintenance and spruce up an area on a budget. Say "no more" to mowing the lawn every other day and install Bella Turf's most economical and visually stunning grass – the Classic.

| | |
|---|---|
| **Blade Shape:** | Flat Blade |
| **Face Weright:** | 52 Oz / Sq Yd |
| **Pile Height:** | 1 5/8" |

$5.50/SQFT

## PAW PRO

Do you need the best of both worlds for pets and play? Paw Pro is you answer. Made with the same super durable Wave Blade as our in-house favourite Cascade Elite this grass can take the punishment of your pets. Also setting this turf apart is its new acrylic backing that is the most porous on the market, allowing all those "liquids" to go right through it. Add in the fact that the backing is infused with Silver Ion that neutralizes a wide range of micro-organisms and it is easy to see why this is the turf to choose for those dog runs as well.

| | |
|---|---|
| **Blade Shape:** | Wave Blade |
| **Face Weright:** | 58 Oz / Sq Yd |
| **Pile Height:** | 1 1/2" |

## Putting Green Styles

### $5.25/SQFT — COUNTRY CLUB

Modelled to look and feel like you're standing on the practice green at the world-renowned Augusta National Golf Club; when the Country Club is properly installed there's little-to-no comparison. If you're a serious golfer, you'll appreciate the mechanics built-in to this artificial golf green. With a textured polythylene monofilament yarn, the Country Club grass matches the most prestigious golf resorts through its lush olive green and field green colours and its ball roll speed of 9.5-11 on the stimpmeter. Turf comes in rolls 13' wide.

| | |
|---|---|
